

arena Pugh is an enthusiastic ring-sider.

During the hot months this summer when Hammer isn't fighting he is going to act as mechanic on Disturber IV., for he has ridden a couple of trips on the speed craft and is dippy over the sport.

STRIKERS BLAME EMPLOYERS FOR NEAR RIOT

The riot which nearly developed in front of the strikebound Northwestern Terra Cotta Co., 2500 Clybourn av., last week, was promoted by the company, which hoped to get more police protection through it, say the union men.

The company has failed utterly in its attempt to work the plant with strikebreakers. It is so anxious to get the strikers back to work that it has offered them a higher wage than they demanded when they struck, but it still refuses to recognize the union. The men hold that recognition of the union is at this time of more importance than an increased wage.

City police are still active in their interest for the company. Following the printing of a story of union men accusing Officer 2404 of threatening strikers, this policeman threatened Leo G. Schmidt, business agent for the strikers, with bodily harm, sayst Schmidt. Schmidt says 2404 warned him against even walking by the plant. Others say they have been threatened by city police.

An injunction has been issued against the strikers, who number 1,100, which is only a little less strict than the one which prohibits machinist strikers from even talking strike in a friend's house.
